

Concrete Washout Systems To Hold Press Conference At The World of Concrete 2005

Elk Grove, CA. January 10, 2005 - Concrete Washout Systems, Inc. (CWS), the World's premier concrete washout services provider, announced today that it will hold a press conference on January 20, 2005 at the World of Concrete 2005 trade show in Las Vegas, NV.

The press conference will be held in the Las Vegas Convention Center's outdoor Mega Demo area at 10 a.m. PST.

The speakers for the event will be:

John Hall, Stormwater Pollution Specialist
Mark Jenkins, President
Kevin Mickelson, Vice President
Sue Basham, World of Concrete

Press conference highlights will include new product demonstration, product and partner announcements, updates on environmental impact issues and release of a contaminant analysis commonly found in concrete washwater.

World of Concrete 2005 will be attended by such companies as; Caterpillar (NYSE: CAT), Case (NYSE: CNH), CEMEX (NYSE: CX), Cummings (NYSE: CMI), Trimble (NASDAQ: TRMB), Terex (NYSE: TEX), Peterbilt (NASDAQ: PCAR), Ingersoll-Rand (NYSE: IR), Weyerhaeuser (NYSE: WY), Putzmeister America and Schwing.

The patent pending CWS is a portable, self-contained and watertight bin that controls, captures and contains concrete washout material and wastewater. It allows trade personnel to easily washout concrete trucks, pumps and equipment on site and facilitates easy off site recycling of the same concrete materials and wastewater, while protecting the storm drain system from potential illegal discharges. The off site recycling component creates an even more environmentally sound application as concrete material is diverted away from landfills and recycled.

About Concrete Washout Systems, Inc.

Concrete Washout Systems is a risk management specialist and industry pioneer in concrete washout and wastewater removal, treatment and recycling. The patent-pending Concrete Washout Systems provides a cost effective, environmentally friendly and compliance alternative for homebuilders, contractors, ready mix and pump operators and environmental engineering firms.
